

Marine Sciences and Ocean Engineering
Ocean College, Zhejiang University http://oc.zju.edu.cn
Introduction
<p>Ocean College of Zhejiang University is established under the authorization of National Ministry of Education and Zhejiang province and based on the previous Department of Ocean Science and Engineering at Zhejiang University. Upholding the motto of “High starting point, integrated development, being sustainable and international”, Ocean College utilizes the favorable policies of New Marine Economic District in Zhoushan city and multi-disciplinary resources of Zhejiang University to establish an unique training system containing the undergraduate education, the postgraduate education, and the continue education of high-level scholars, and to form the comprehensive research institutes of Zhejiang University in marine science and ocean engineering. The College consists of 2 departments and their 8 research institutes, which are the Department of Marine Sciences, Department of Ocean Engineering, Institute of Marine Geology and Resources, Institute of Physical Oceanography, Institute of Marine Biology, Institute of Marine Chemistry and Environment, Institute of Island and Coastal Research, Institute of Port, Coastal and Offshore Engineering, Institute of Underwater Technology, Institute of Naval Architecture and Ocean Engineering, and etc</p>
<p>Master’s degree programs:</p> <p>Marine Chemistry, Physical Oceanography, Marine Biology, Marine Geology, Marine Pharmacology, Naval Architecture and Ocean Engineering, Hydraulic Engineering</p> <p>Doctoral degree programs:</p> <p>Marine Resources and Environment, Ocean Engineering,</p> <p>Marine Information Science and Engineering, Marine Pharmacology</p>
